

# Mandemar RFS - Contact details collection

## Overview:

The Mandemar Volunteer Rural Fire Brigade maintains a database for the storage of contact information for people in our brigade area. The contact information is used primarily to contact members and residents in cases of emergency. It is also used for the distribution of newsletters, event and meeting and fund raising notices, and for the distribution of information relating to fire safety and preparation.

Where possible, the brigade will try to keep members and residents informed of fire threats within the brigade area, **however this may not always be possible with crews concentrating on fire fighting activities.**

Visit us on the web: [www.mandemar.rfsa.org.au](http://www.mandemar.rfsa.org.au)

## Instructions:

Please complete all sections of the form on page 2. Apologies if you have provided much of this information in the past. For privacy and other reasons, we are seeking to refresh all data.

**Note: In most cases, the property owner will be one of the contacts, so there will be some duplication on the form.**

On completion, please send completed form to:

## A note on rural numbering:

Rural numbers can help save lives.

Displaying your rural numbers at the entrance to your property is a council requirement.

Plates can be ordered and purchased from the council at a cost of \$25 each.

Contact Jan Giblin at the Wingecarribee Shire Council ([jan.giblin@wsc.nsw.gov.au](mailto:jan.giblin@wsc.nsw.gov.au)) if you:

- have a question about numbering
- require first time or additional number plates for your property
- do not have a residence on your property, but would like it to be numbered

## Alternative contacts (e.g. work, second person etc.):

Use this to enter work and other contact details for the primary, and alternative contacts. Enter the number in call-priority order.

Emailed information will be sent to both primary, and any additional addresses.

## Other information:

### Available static water supply (SWS)

Available static water supplies are reserves of water that are available all year round for fire fighting.
